Ing character of the business to which M: KESWICE'S Share Bill is calculated to put a stop was illustrated by the evidence recently given in the case of Rustomjes's bankwould be improper for us to comment on the conduct of the bankrupt, but speaking simply of the class of business in which he was engaged we may be allowed to remark that if to put a stop to it would, as the Hon. T. this week for a yield of 290 til of gold. Hon H. WHITEHEAD fears in his letter published in yesterday's issue, deaden the market, all we can say is that the more the market is deadened the better. If the stock, market rested red-handed, so to speak, in their lodge can only be kept alive by the buying and selling of non-existent shares the institution Chinese community. With such a severe object lesson before us, it seems singular that the Colony should fail to profit by it After the decision of the Chamber of Commerce vesterday afternoon, however, it may perhaps be considered expedient to postpone the Bill until public opinion is more nearly cultivated up to it. Although we agree spect, albeit the majority was swollen by a number of brokers, who are interested if not fully by securities. partice. The decision might have been different had the meeting been a public one. instead of a meeting of the members of the Chamber of Commerce only, but that of course is a mere matter; of speculation.

It is very possible that difficulties might be encountered in the practical working of the measure, shares passing as they shares for forward delivery in Shanghai would probably not know their numbers, Polka and it might be considered hard that he should be deprived of his -chance of selling them forward on the Hongdisposed to attach very much importance to the Borneo Wharf collided with the stormer the point, but we can better understand op. Every stock has its slightly damaged. intrinsic value, and if by quickening the market is meant unduly inflating stocks above their value the consequences to the Colony of such quickening cannot be otherwise than dividuals. However, there is no restriction on time bargains at present, and the market her In ordering it is only necessary to state is dead enough in all conscience. Nor does the name and quantity of Wine or Spirit wanted, Mr. Krawrok's Bill propose to put a stop to time bargains, but only to the sale of shares by people who do not possess them. Mr. WEITEREAD in his letter states that Case. Per Bot. other Bank Managers of longer experience in the Colony than himself say the Act would be a dead letter except when dishonest speculation came to grief, that then its action would protect and favour the rogues, that it would not stop time bargains, that it would encourage dishonest speculators, and possibly induce men who were not actually dishonest to begin with, but whose sense of honour is not of the highest class, to speculate wildly in time bargains knowing that if their speculations turn out well it will be a good thing, if badly they can repudiate their contracts successfully. But where would such people find others willing to sell to them ? If a man wants to enter into a transaction not recognised by the law he is careful whom he deals with, just as at cards he will not play with a company in whom he has not confidence. We cannot see, therefore, that

this argument has any force. Mr. WHITEHEAD recommends as an alternative measure the licensing of sworn and named Ho Chik Man on the 14th May and rob. substantially guaranteed brokers with a strictly regulated stock exchange rigidly excluding all "jobbers." A good deal has been said at one time and another about broker would remain the same whether he Bamsey were licensed or not.
